Ankara Development Agency, which was established in order to mobilize the powerful potential of Ankara, has launched its operations for the development of Ankara as of 9 July 2010, when the Secretary General was assigned. The importance of Ankara Development Agency is doubled due to the fact that it operates in the capital of Turkey and is close to the central government's decision making mechanisms.

The main purpose of Ankara Development Agency is to accelerate regional development and mitigate inter/intra-regional differences of development in line with the national development plan and principles. With the purpose of reaching this target, the Agency aims at improving collaboration between the public sector, private sector, local administrations, universities and civil society organizations.
