

# 2014-2023 REGIONAL PLAN SUMMARY

TRB1 REGION  
(MALATYA, ELAZIĞ, BINGOL AND TUNCELI)

---

## EXECUTIVE SUMMARY

2014-2023 Regional Plan, which sets out measures and priorities which will lead TRB1 Region where is including the provinces of Malatya, Elazığ, Bingöl and Tunceli to the year of 2013, has prepared with the participation of the related stakeholders and coordination of Firat Development Agency.

The planning process, which commenced with the detailed analysis of many primary elements that is possible to play role in the socio economic development process such as social fabric, human capital, prominent sectors, underground and aboveground resources, environment and accessibility, is shaped by the detection with field research of city centers and counties' spatial features and receiving information, opinions and suggestions of stakeholders at every level. The settlements are evaluated on the level of county; spatial clustering analysis is made, taking into consideration of many criteria such as the density of population, administrative, commercial and manufacturing based relations, influence and interaction field with other counties and regions and in this context, relevant clusters are defined; measure-performance analysis which is based on already conducted electronic survey results is made. The condensation coefficients are also determined on the basis of number employees in order to identify the sectorial clusters. As a result of all these analysis which worked through, vision for the region, development axis, priorities, precautions and performance indicators are determined as well.

On the other hand, Plans that is prepared on the national scale such as the 10<sup>th</sup> Development Plan, National Rural Development Strategy, Tourism Strategy of Turkey, National Earthquake and its Action Plan, EU Integrated Environmental Approximation Strategy, Transportation and Communication Strategy Turkey “2023 Vision” and subscale Malatya, Elazığ, Bingöl, Tunceli and 1/100.000 scale Environmental Plan which is prepared on the level of National Strategy for Regional Development and TRB1 Region are evaluated as subscale and upscale documents and establish an mutual accord in the process of drawing plan.

The regional vision in the 2014-2023 TRB1 Plan is depicted as “Evolving TRB1 region into owning high quality of life and entrepreneurial, well- educated human resources.” and identified development axis that will lead the region to the vision as “the quality of life” and “the sustainable economy”.

TRB1 region, where is disadvantageously located in interior region and distant from border and port areas in Turkey, consists of Malatya, Elazığ, Bingöl and Tunceli provinces. It is aimed at evolving its agricultural based economy into industrial and tourism-oriented economy with its available %1.3 percent share in gross value added. This plan, which is established on the basis of providing the atmosphere of accelerating the economic development that will pave the way for increasing competitiveness of town-center of Malatya Elazığ on the national and international level, enhancing the quality of life of Bingöl and Tunceli and counties where are situated in the vicinity of Malatya and Elazığ, is evaluated this dual-heterogeneous spatial condition as two structure of development axis and raster data structure.

The plans has an objective of increasing its tourist level to 500.000, %95 percent women literacy rate, % 8 unemployment rate and total 2 billion USD export growth rate. On the one hand, under the quality of life axis, the plan has priorities “the development of social and human wealth”, “the amelioration of the hard infrastructure”. On the other hand, under the sustainable economic development axis, there are priorities such as “the increasing the output and productivity of agriculture”, “the enhancing alternative forms of tourism”, “the strengthening the industrial production” and “the efficient usage of energy and mineral”.

Within the scope of measures that are determined for 6 priorities, every single priority’s implementation area and project and activity recommendations, which are possible to carry out in the implementation phase, are identified. It is also suggested to practitioner, related institutions and organizations and potential financial resources as a precautionary measure. Priorities and precautions are outlined on the regional maps and spatial development schema of the region is formed generally.

**Evolving TRB1 Region Into Owning High Quality Of Life And Entrepreneurial,  
Well- Educated Human Resources**

**AXIS 1: THE QUALITY OF LIFE**

**PRIORITY 1.1. THE DEVELOPMENT OF SOCIAL AND HUMAN WEALTH**

**Measure 1.1.1. The Maximation Efficiency of Non-Governmental Organization**

**Measure 1.1.2. The Enhancement of Cooperation in the Field of Economy**

**Measure 1.1.3. The Strengthening of the Spirit of Entrepreneurship**

**Measure 1.1.4. The Strengthening of Institutional Capacity and Interinstitutional  
Coordination**

**Measure 1.1.5. The Improvement of Vocational Education in accordance with  
sectoral Needs**

**Measure 1.1.6. The Improvement of Research, Practice and Educational Potentials of  
Universities**

**Measure 1.1.7. The Enhancement Participation of Women in Social and Economic  
Life and Decision-Making Process**

**Measure 1.1.8. The Migration Management**

**PRIORITY 1.2. THE AMELIORATION OF THE HARD INFRASTRUCTURE**

**Measure 1.2.1. The Improvement of Public Transportations on the basis of  
Efficiency and Accessibility**

**Measure 1.2.2. The Strengthening of Transportation Infrastructure**

**Measure 1.2.3. The Expansion of Forestry and Green Zones**

**Measure 1.2.4. The Making Prepared of Residential Districts from any Possible  
Disasters**

**Measure 1.2.5. The Improvement of Structuring in the TRB1 Region**

**Measure 1.2.6. The Improvement of Health Services Infrastructure**

**Measure 1.2.7. The Increase Accessibility of Health Services in Rural Areas**

**Measure 1.2.8. The Improvement of Social Services and Transportation  
Infrastructure towards Women, Disable and Elders.**

**Measure 1.2.9. The Amelioration of the Water, Sewage Infrastructure**

**Measure 1.2.10. Providing Efficient Management of the Solid Waste**

**Measure 1.2.11. The Establishment of Wastewater Treatment Facilities and Improve  
the Existing Ones.**

**Measure 1.2.12. The Improvement of Culture and Sport Facilities****Evolving TRB1 Region Into Owning High Quality Of Life And Entrepreneurial,  
Well- Educated Human Resources****AXIS 2: THE SUSTAINABLE ECONOMY****PRIORITY 2.1. THE INCREASING THE OUTPUT AND PRODUCTIVITY OF  
AGRICULTURE****Measure 2.1.1. The Expansion of Irrigable Land and Extension of Modern Water  
Systems****Measure 2.1.2. The Land Consolidation****Measure 2.1.3. The Extension of Modern Aeronautical Applications****Measure 2.1.4. The Increase the Production and Added-Value of Water Product****Measure 2.1.5. The Improvement of Beekeeping and Providing High Quality of  
Honey Production****Measure 2.1.6. The Reducing the Dependency on Providing Agricultural Input****Measure 2.1.7. The Extension of Greenhouse Cultivation****Measure 2.1.8. The Storing the Agricultural Products and Providing Infrastructure  
for Storing****Measure 2.1.9. The Improvement of Marketing Infrastructure in Agricultural  
Production****Measure 2.1.10 The Expansion of Good Agricultural Practices and Organic Farming****Measure 2.1.11 Included Medicinal and Aromatic Plants in Economy****Measure 2.1.12 The Extension of Education and Techniques towards Increasing  
Efficiency in Agriculture****Measure 2.1.13 The Diversification of Fruit Growing****PRIORITY 2.2. THE ENHANCING ALTERNATIVE FORMS OF TOURISM****Measure 2.2.1. The Increment of the Quality of Service and the Number of Facility  
in Tourism****Measure 2.2.2. The Advertisement and Marketing of Tourism Assets****Measure 2.2.3. The Improvement of Accessibility of Tourism Assets****PRIORITY 2.3. THE STRENGTHENING THE INDUSTRIAL PRODUCTION****Measure 2.3.1. Increasing the Infrastructure Services in the Field of Industry**

<b>Measure 2.3.2. The Diversification of Product in Food Industry</b>
<b>Measure 2.3.3. Branding, Processing and Increasing the Production of Local Products</b>
<b>Measure 2.3.4. The Usage of Innovative Technology in Textile Industry and Improving Clustering Strategies</b>
<b>Measure 2.3.5. Increasing the Investment in Building Materials Industry</b>
<b>Measure 2.3.6. The Improvement of Machinery and Equipment Businesses</b>
<b>Measure 2.3.7. The Incentives of Investments in Metal Products</b>
<b>Measure 2.3.8. The Increasing of Investments in Medical Stuff and Products Industry</b>
<b>PRIORITY 2.3. THE STRENGTHENING OF INDUSTRIAL PRODUCTION</b>
<b>Measure 2.4.1. The Operationalization of Potential Mineral Reserves</b>
<b>Measure 2.4.2. The Usage of Chromium and Iron Ore in High Added Value Products</b>
<b>Measure 2.4.3. The Improvement of R&amp;D Activities and Cooperation in Marble Sector</b>
<b>Measure 2.4.4. The Performing Works in Re-Usage of Mine Tailings</b>
<b>Measure 2.4.5. The Incentives of Investment in Renewable Energy</b>
<b>Measure 2.4.6. The Establishment of Hydroelectric Plant Taking Into Account Public Sensitiveness and Protection of Nature</b>
<b>Measure 2.4.7. The Incentives of Energy Efficiency in Businesses of Agriculture and Industry</b>
